Counting Beyond 9!

Discovering Numbers from 10 to 20

↗ 10... 15... 20!

Meena's Marbles

Meena has a bag filled with shiny glass marbles. She already counted 9 marbles on her table.

What happens when her brother gives her **one more** marble?

Let's find out together!

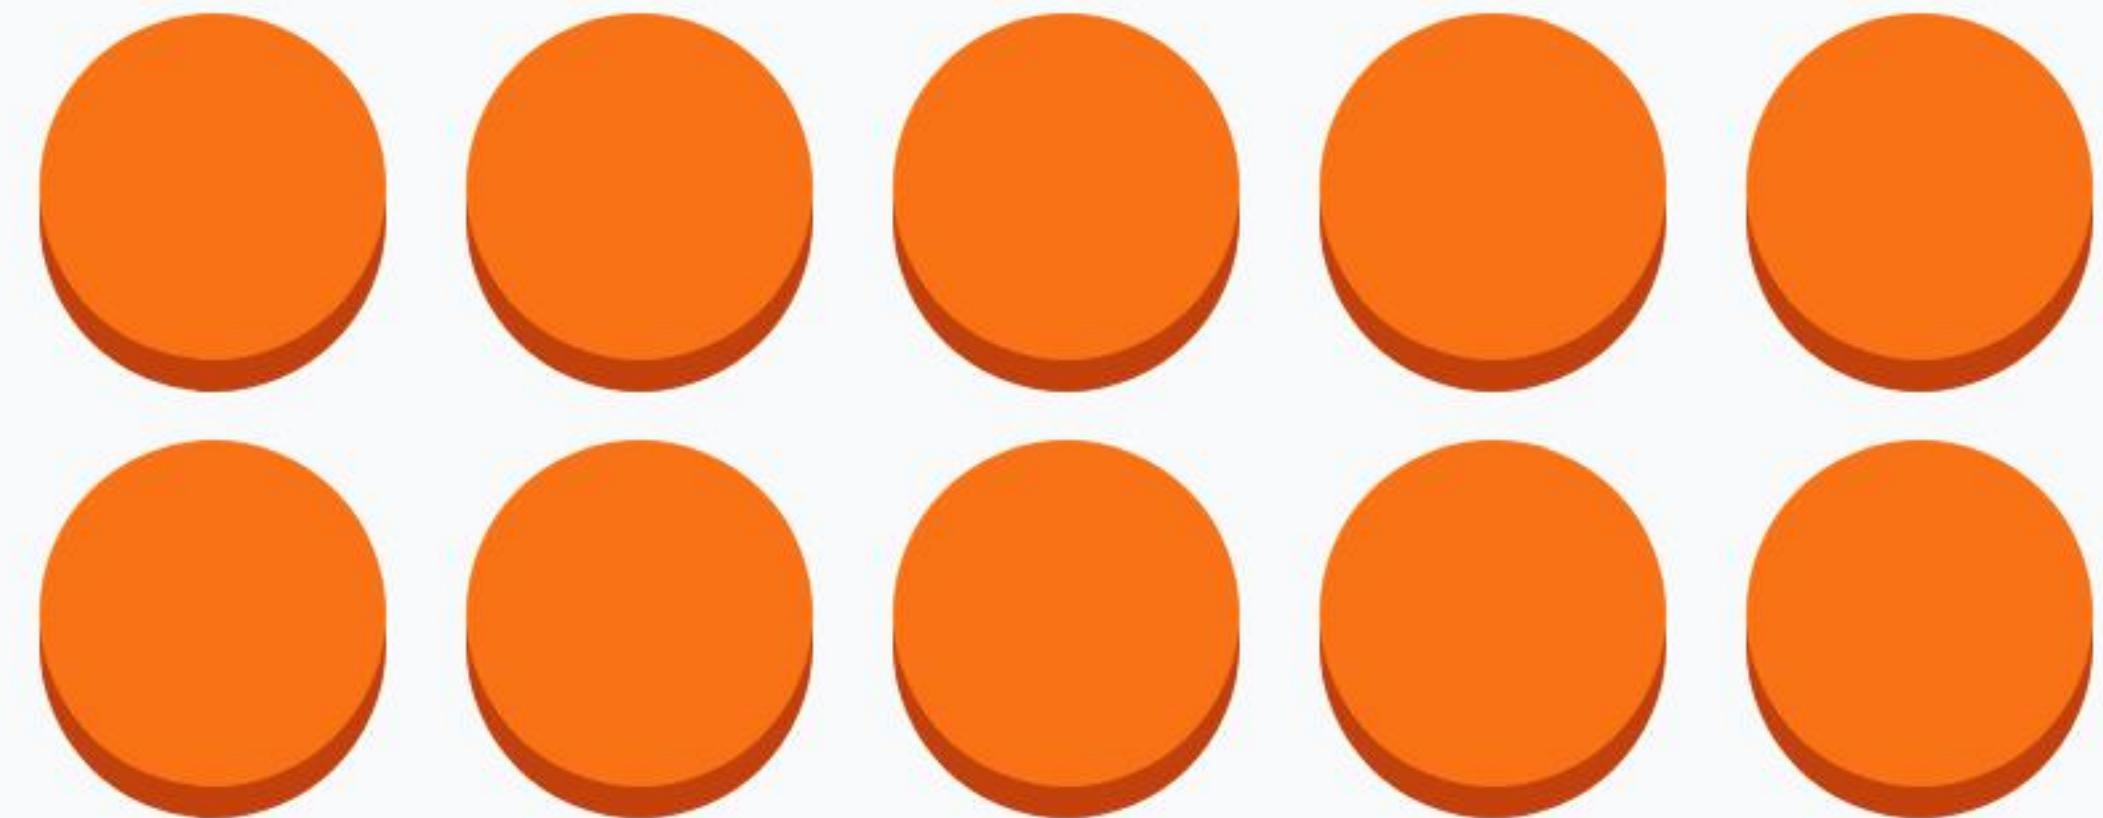

In simple words: When we add to 9, we start making bigger double-digit numbers!

The Magic Number 10

10

TEN Colorful Beads

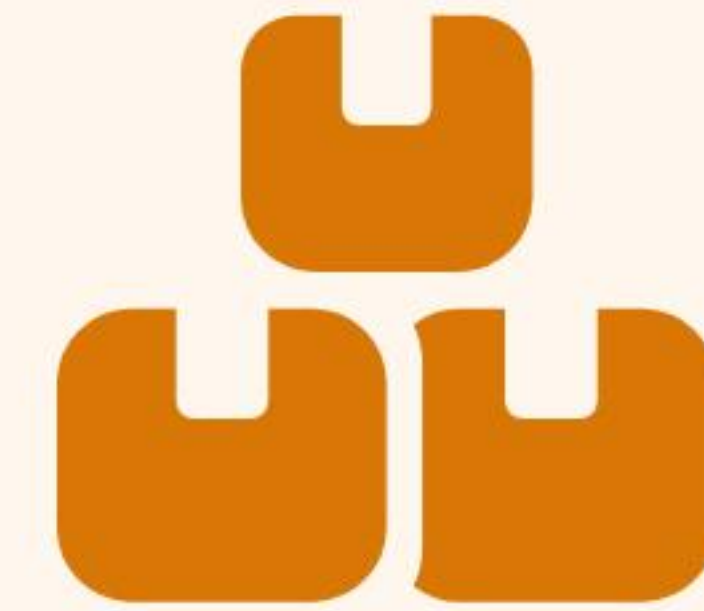

In simple words: 10 is the very first number written with two digits.

Making a **Bundle of 10**

When we get 10 loose matchsticks, we tie them tightly with a rubber band to make **1 Bundle**.

1 Bundle = 10 Sticks!

This bundle will help us count up to 20 fast!

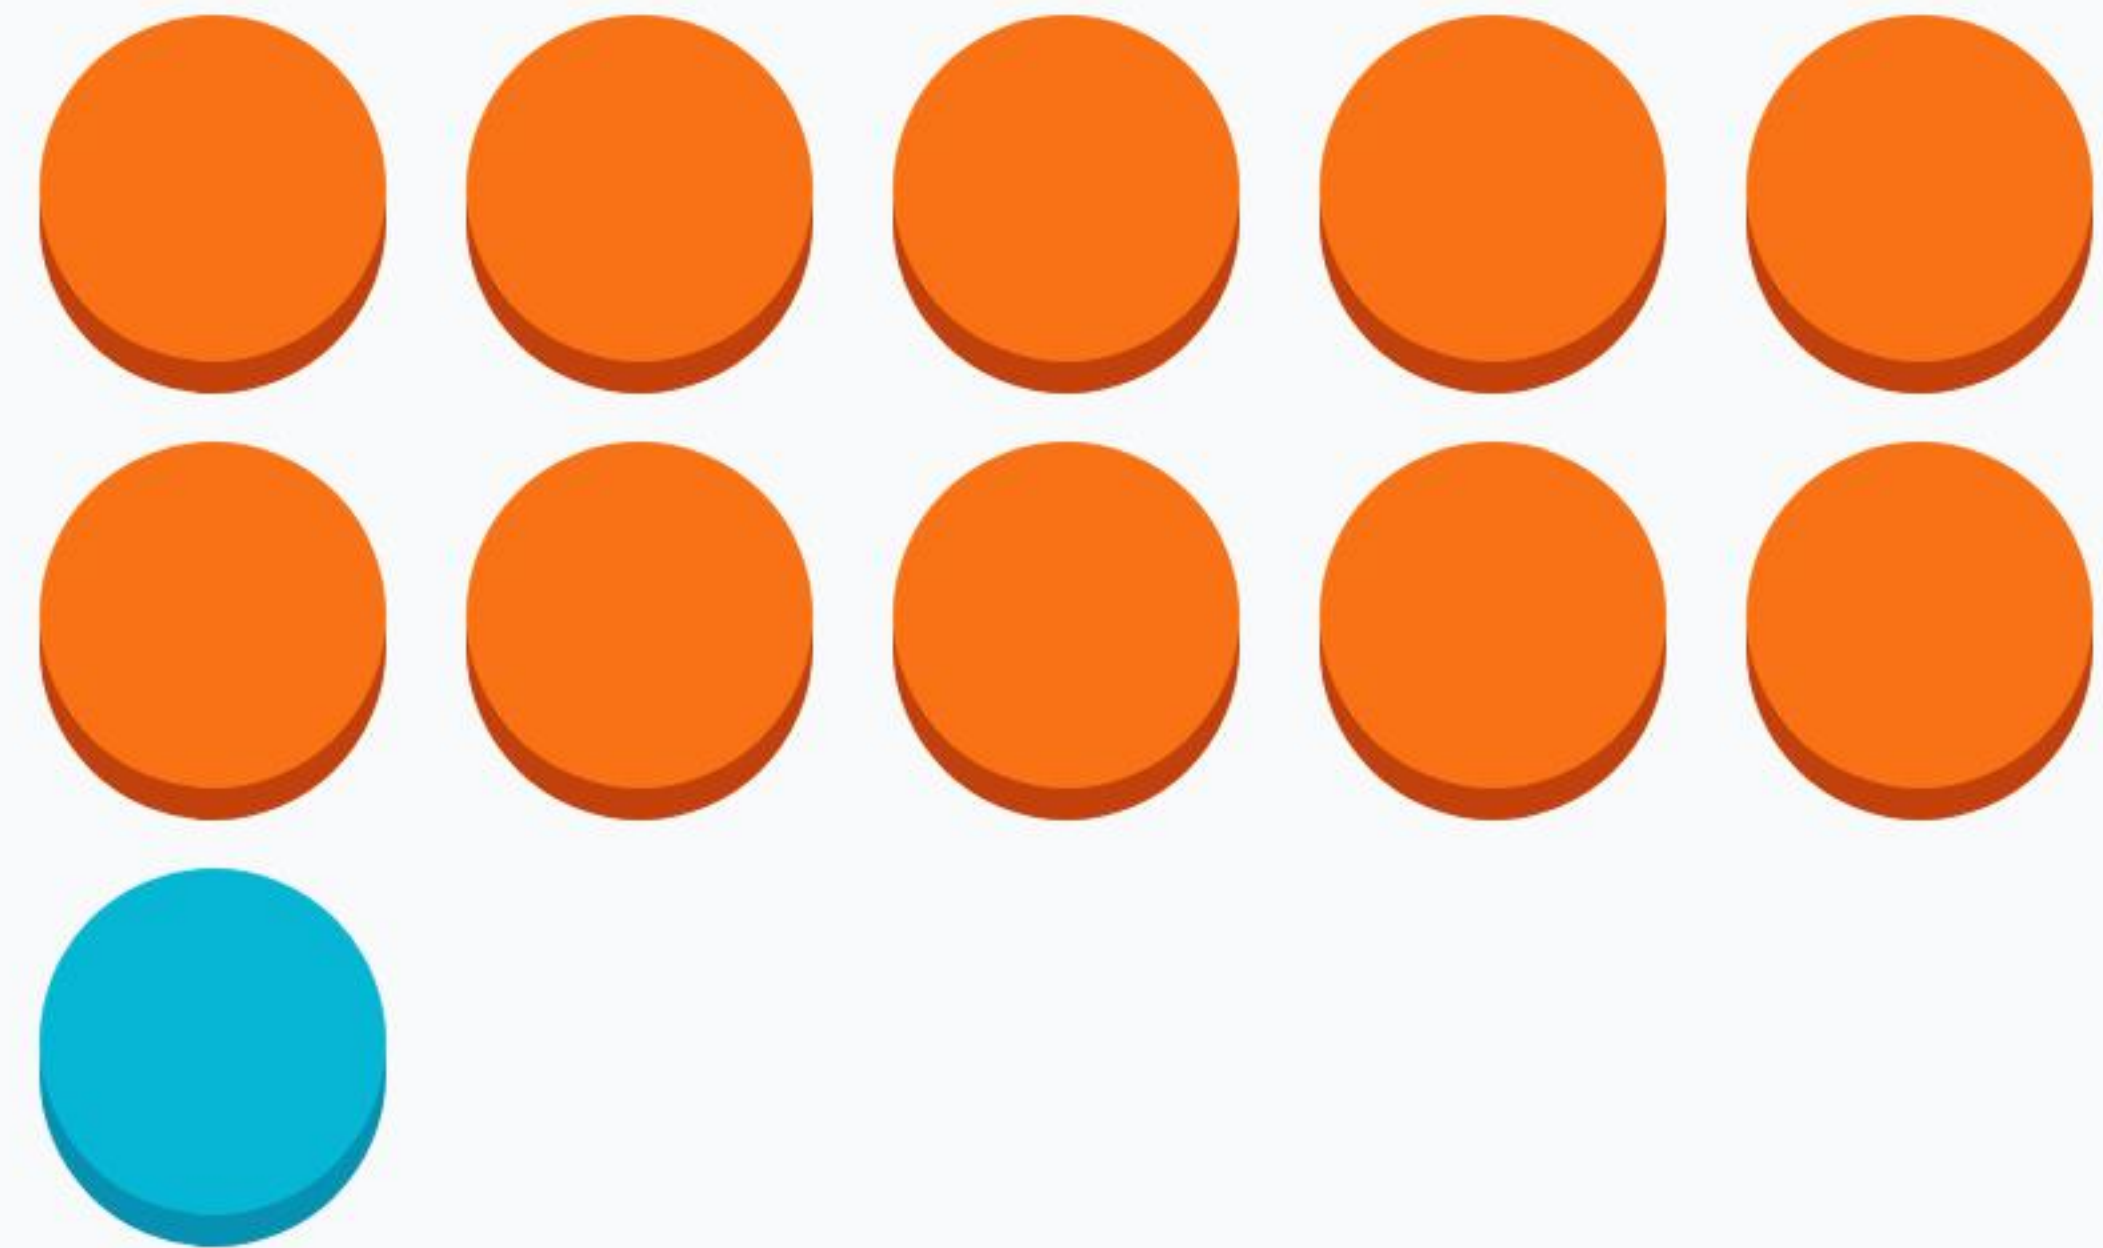

In simple words: Grouping ten loose items together creates one clean bundle.

Number 11

11

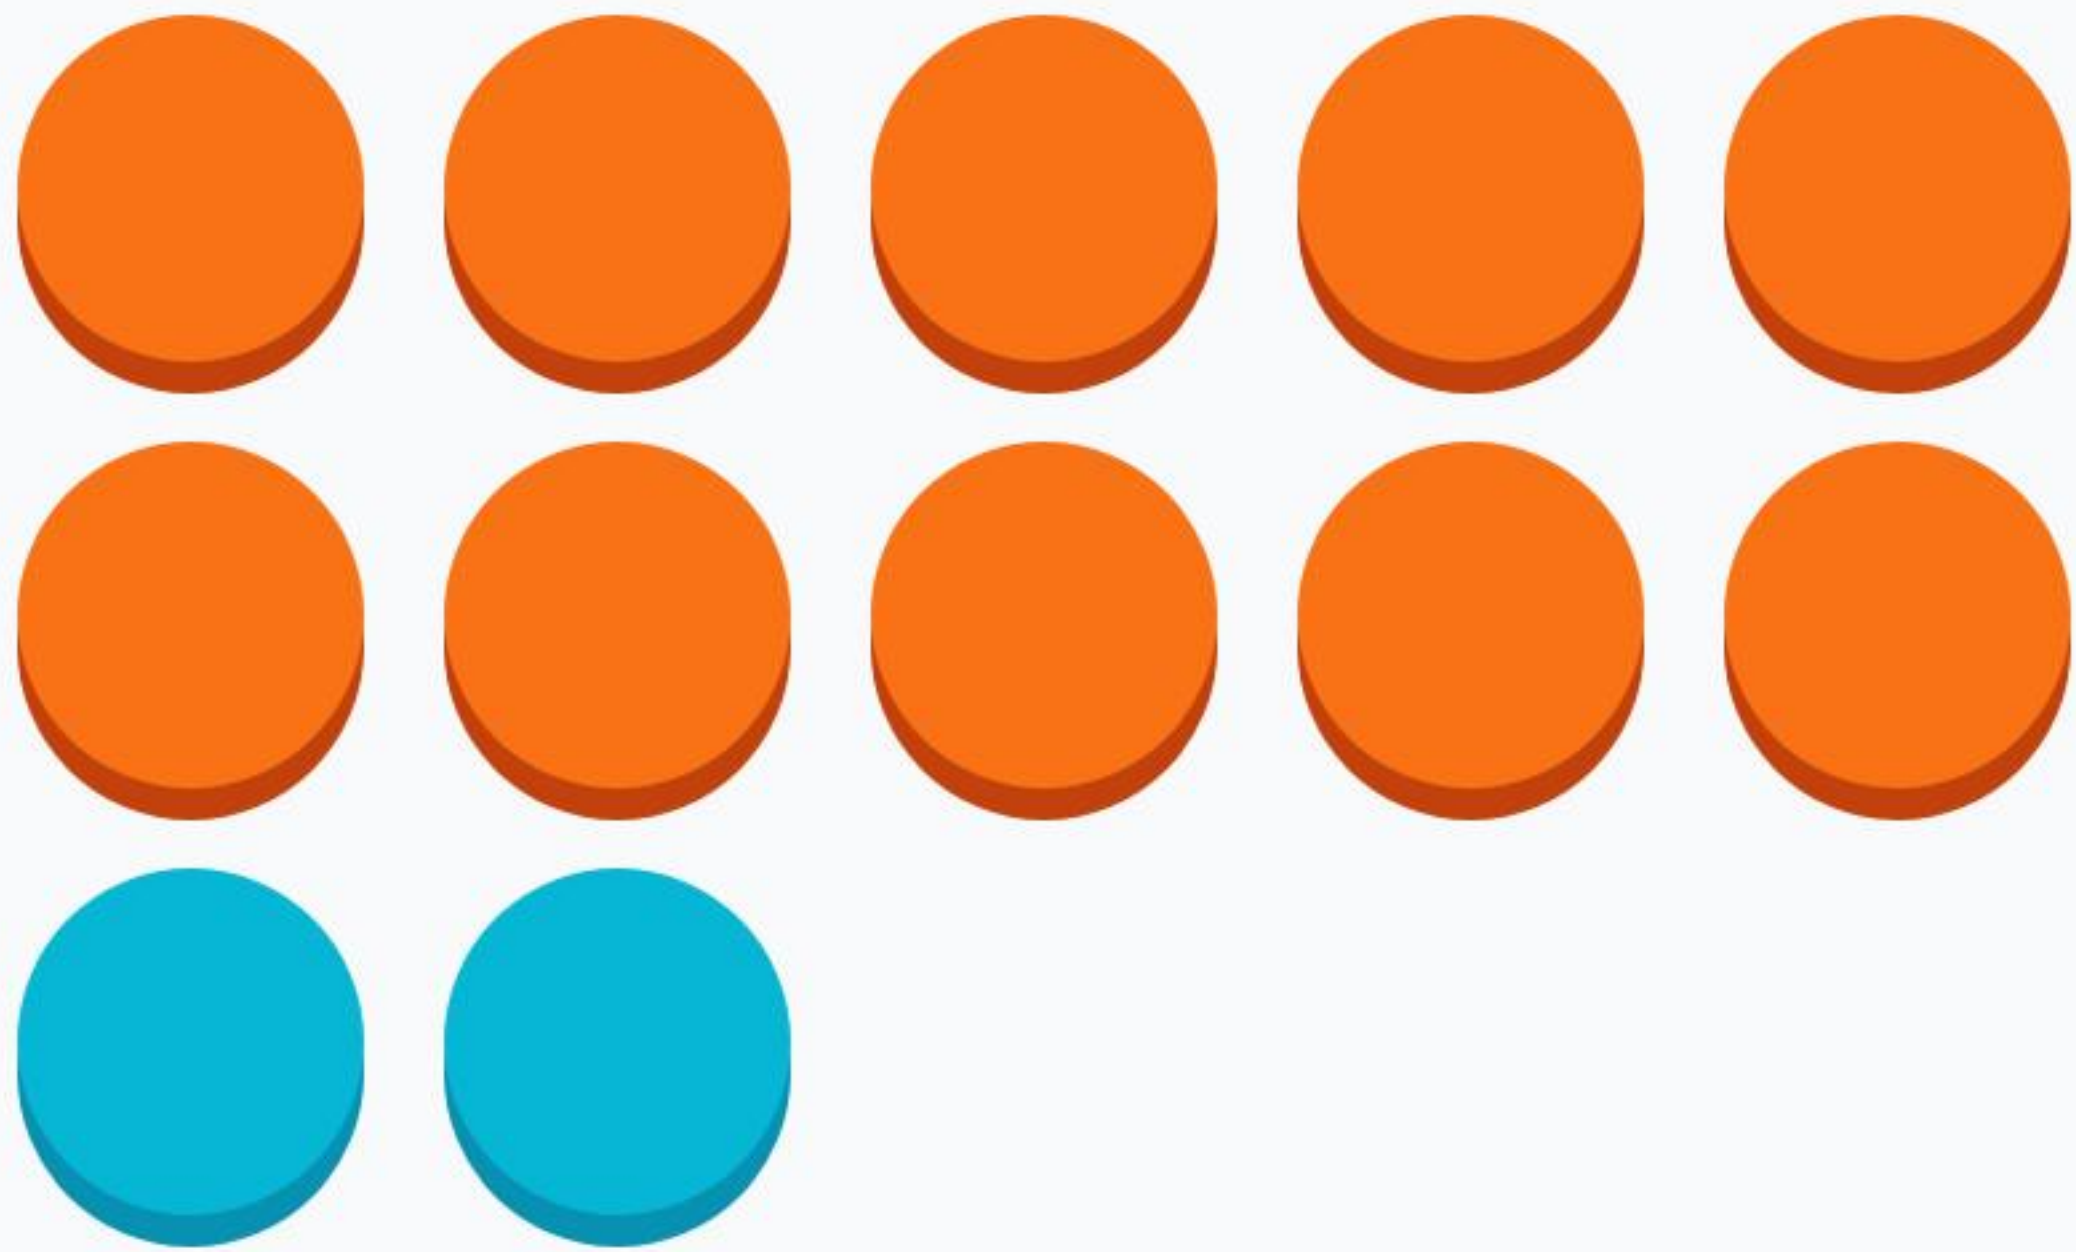

ELEVEN

1 Bundle of Ten + 1 Loose Stick

In simple words: Eleven is ten and one more.

Number 12

12

TWELVE

1 Bundle of Ten + 2 Loose Sticks

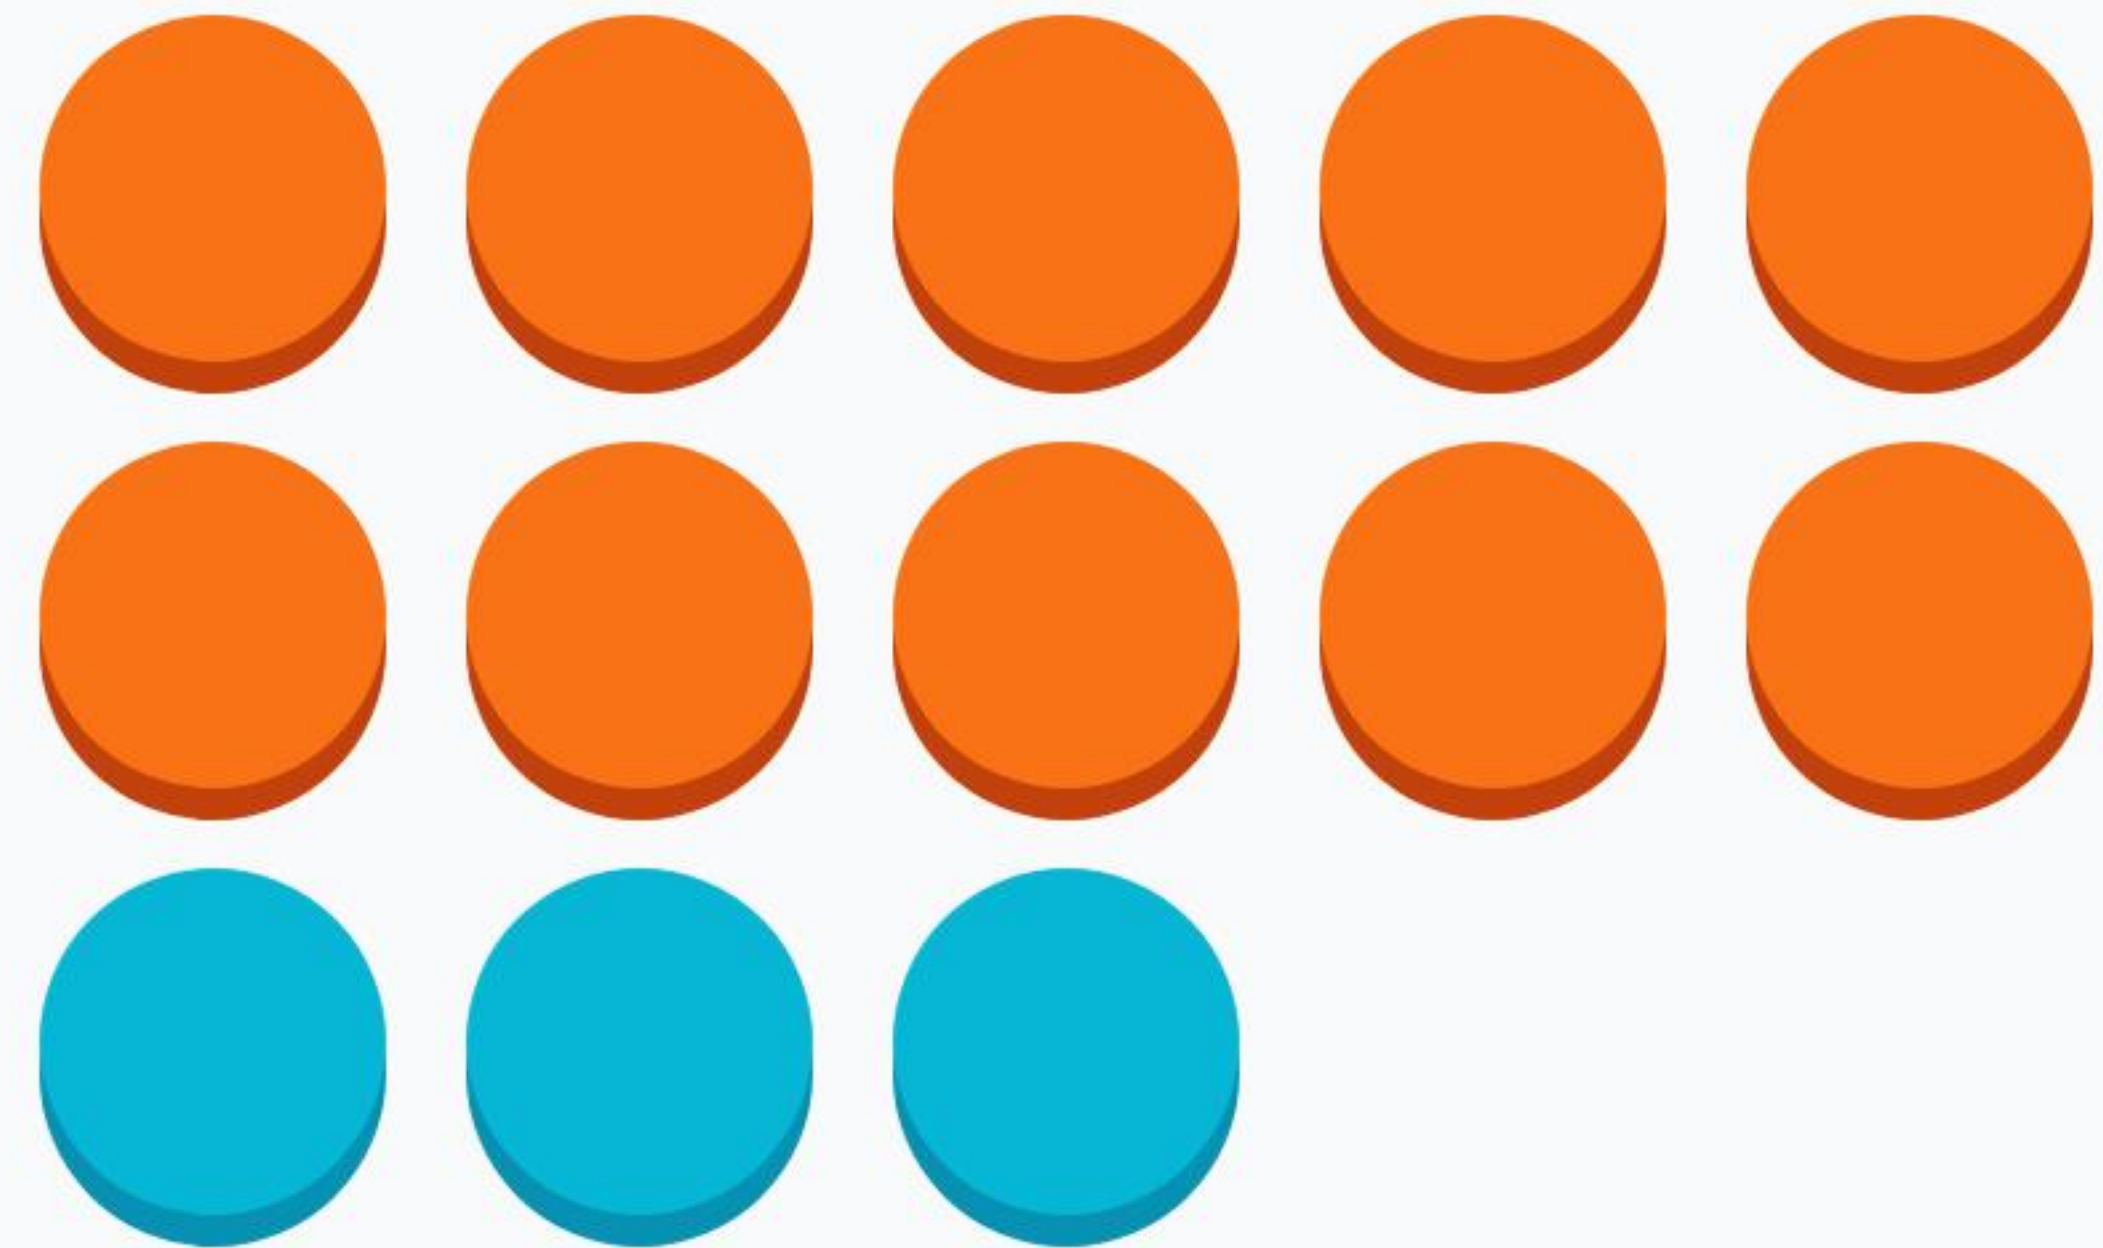

In simple words: Twelve is ten and two more.

Number 13

13

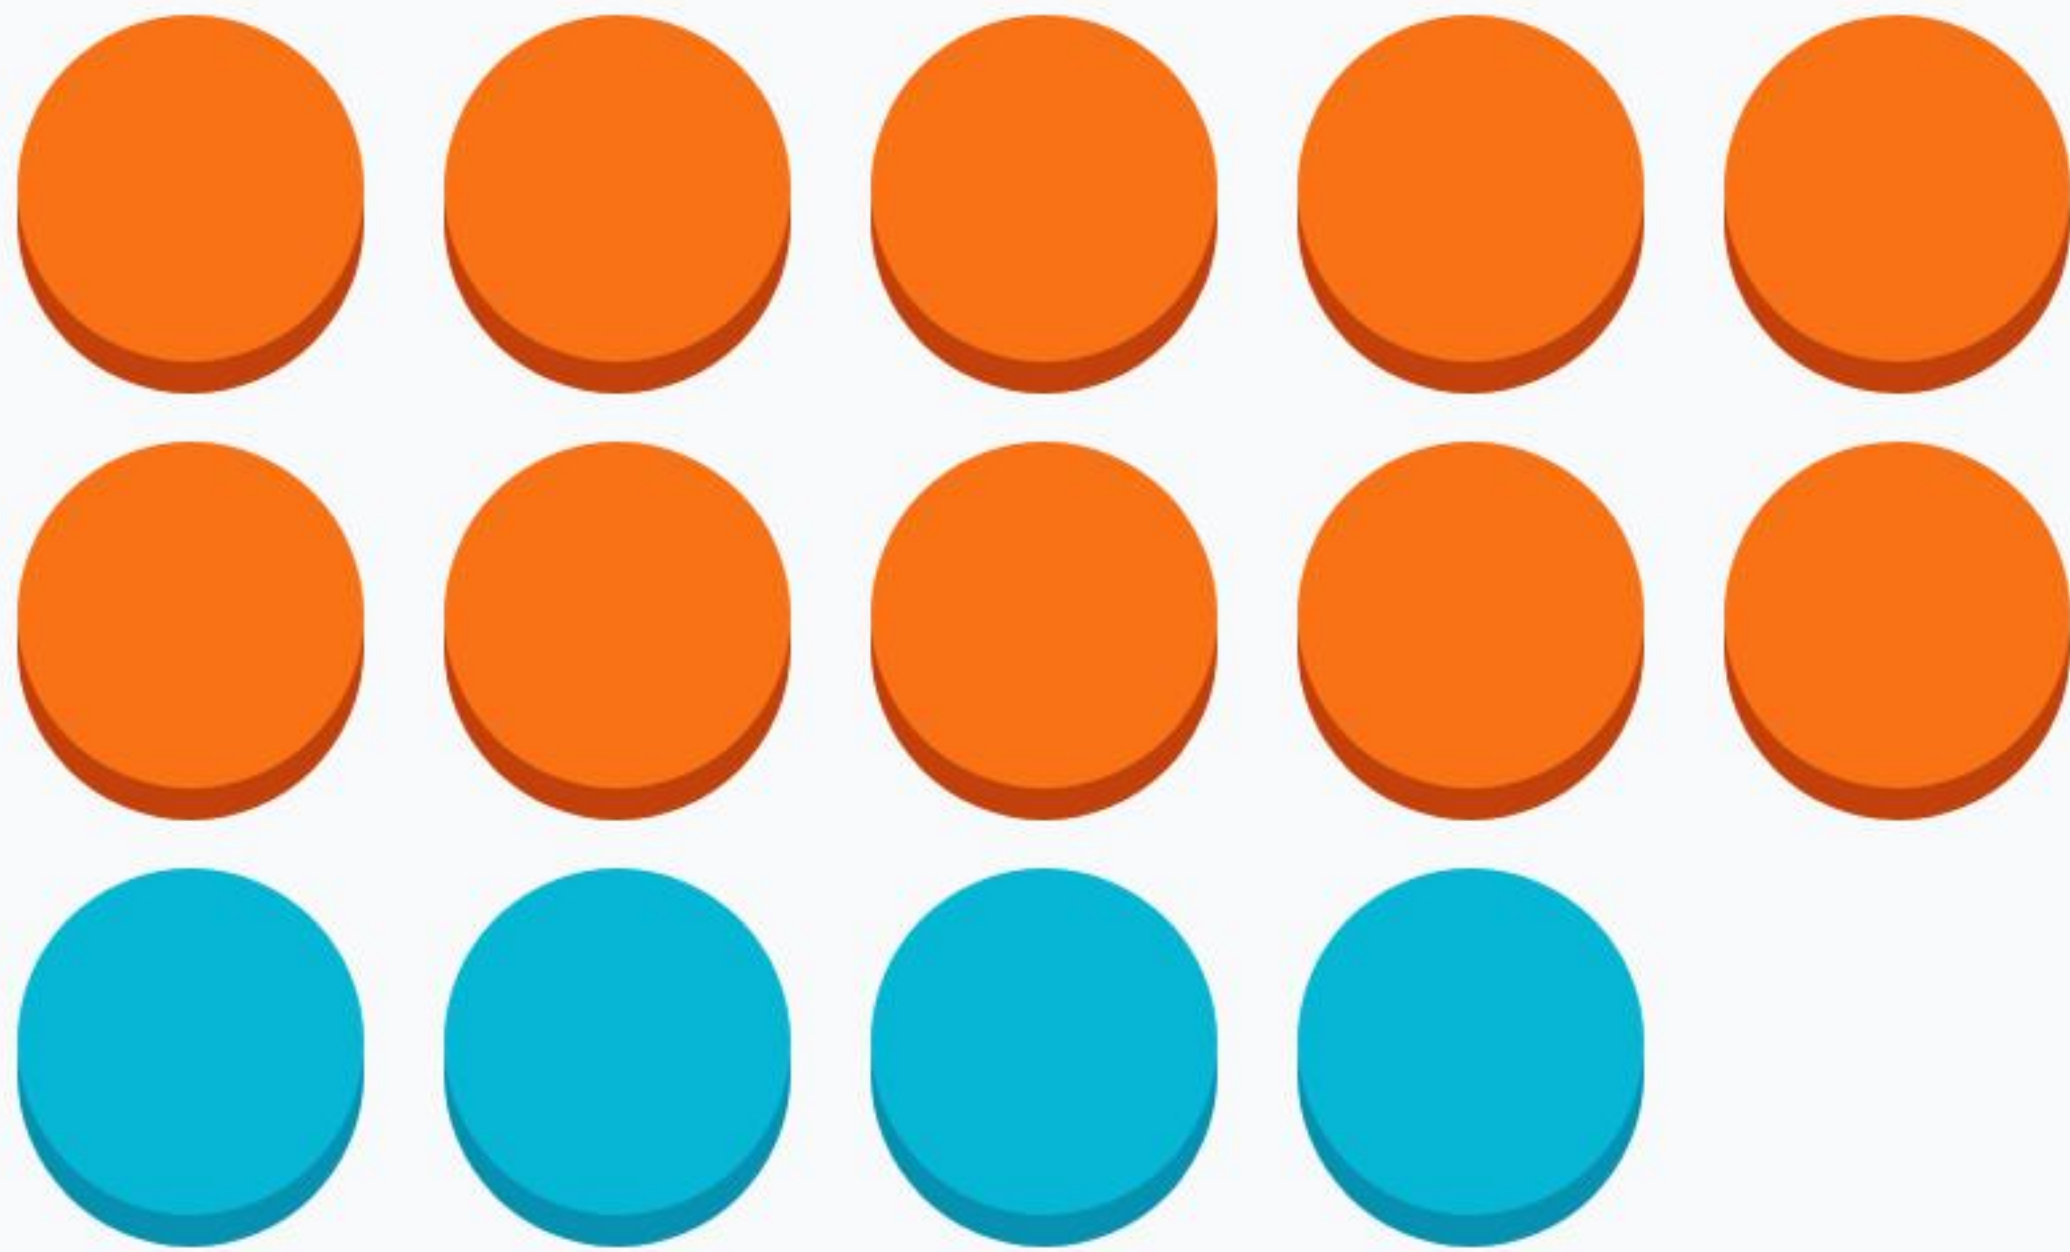

THIRTEEN

1 Bundle of Ten + 3 Loose Sticks

In simple words: Thirteen is ten and three more.

Number 14

14

FOURTEEN

1 Bundle of Ten + 4 Loose Sticks

In simple words: Fourteen is ten and four more.

Number 15

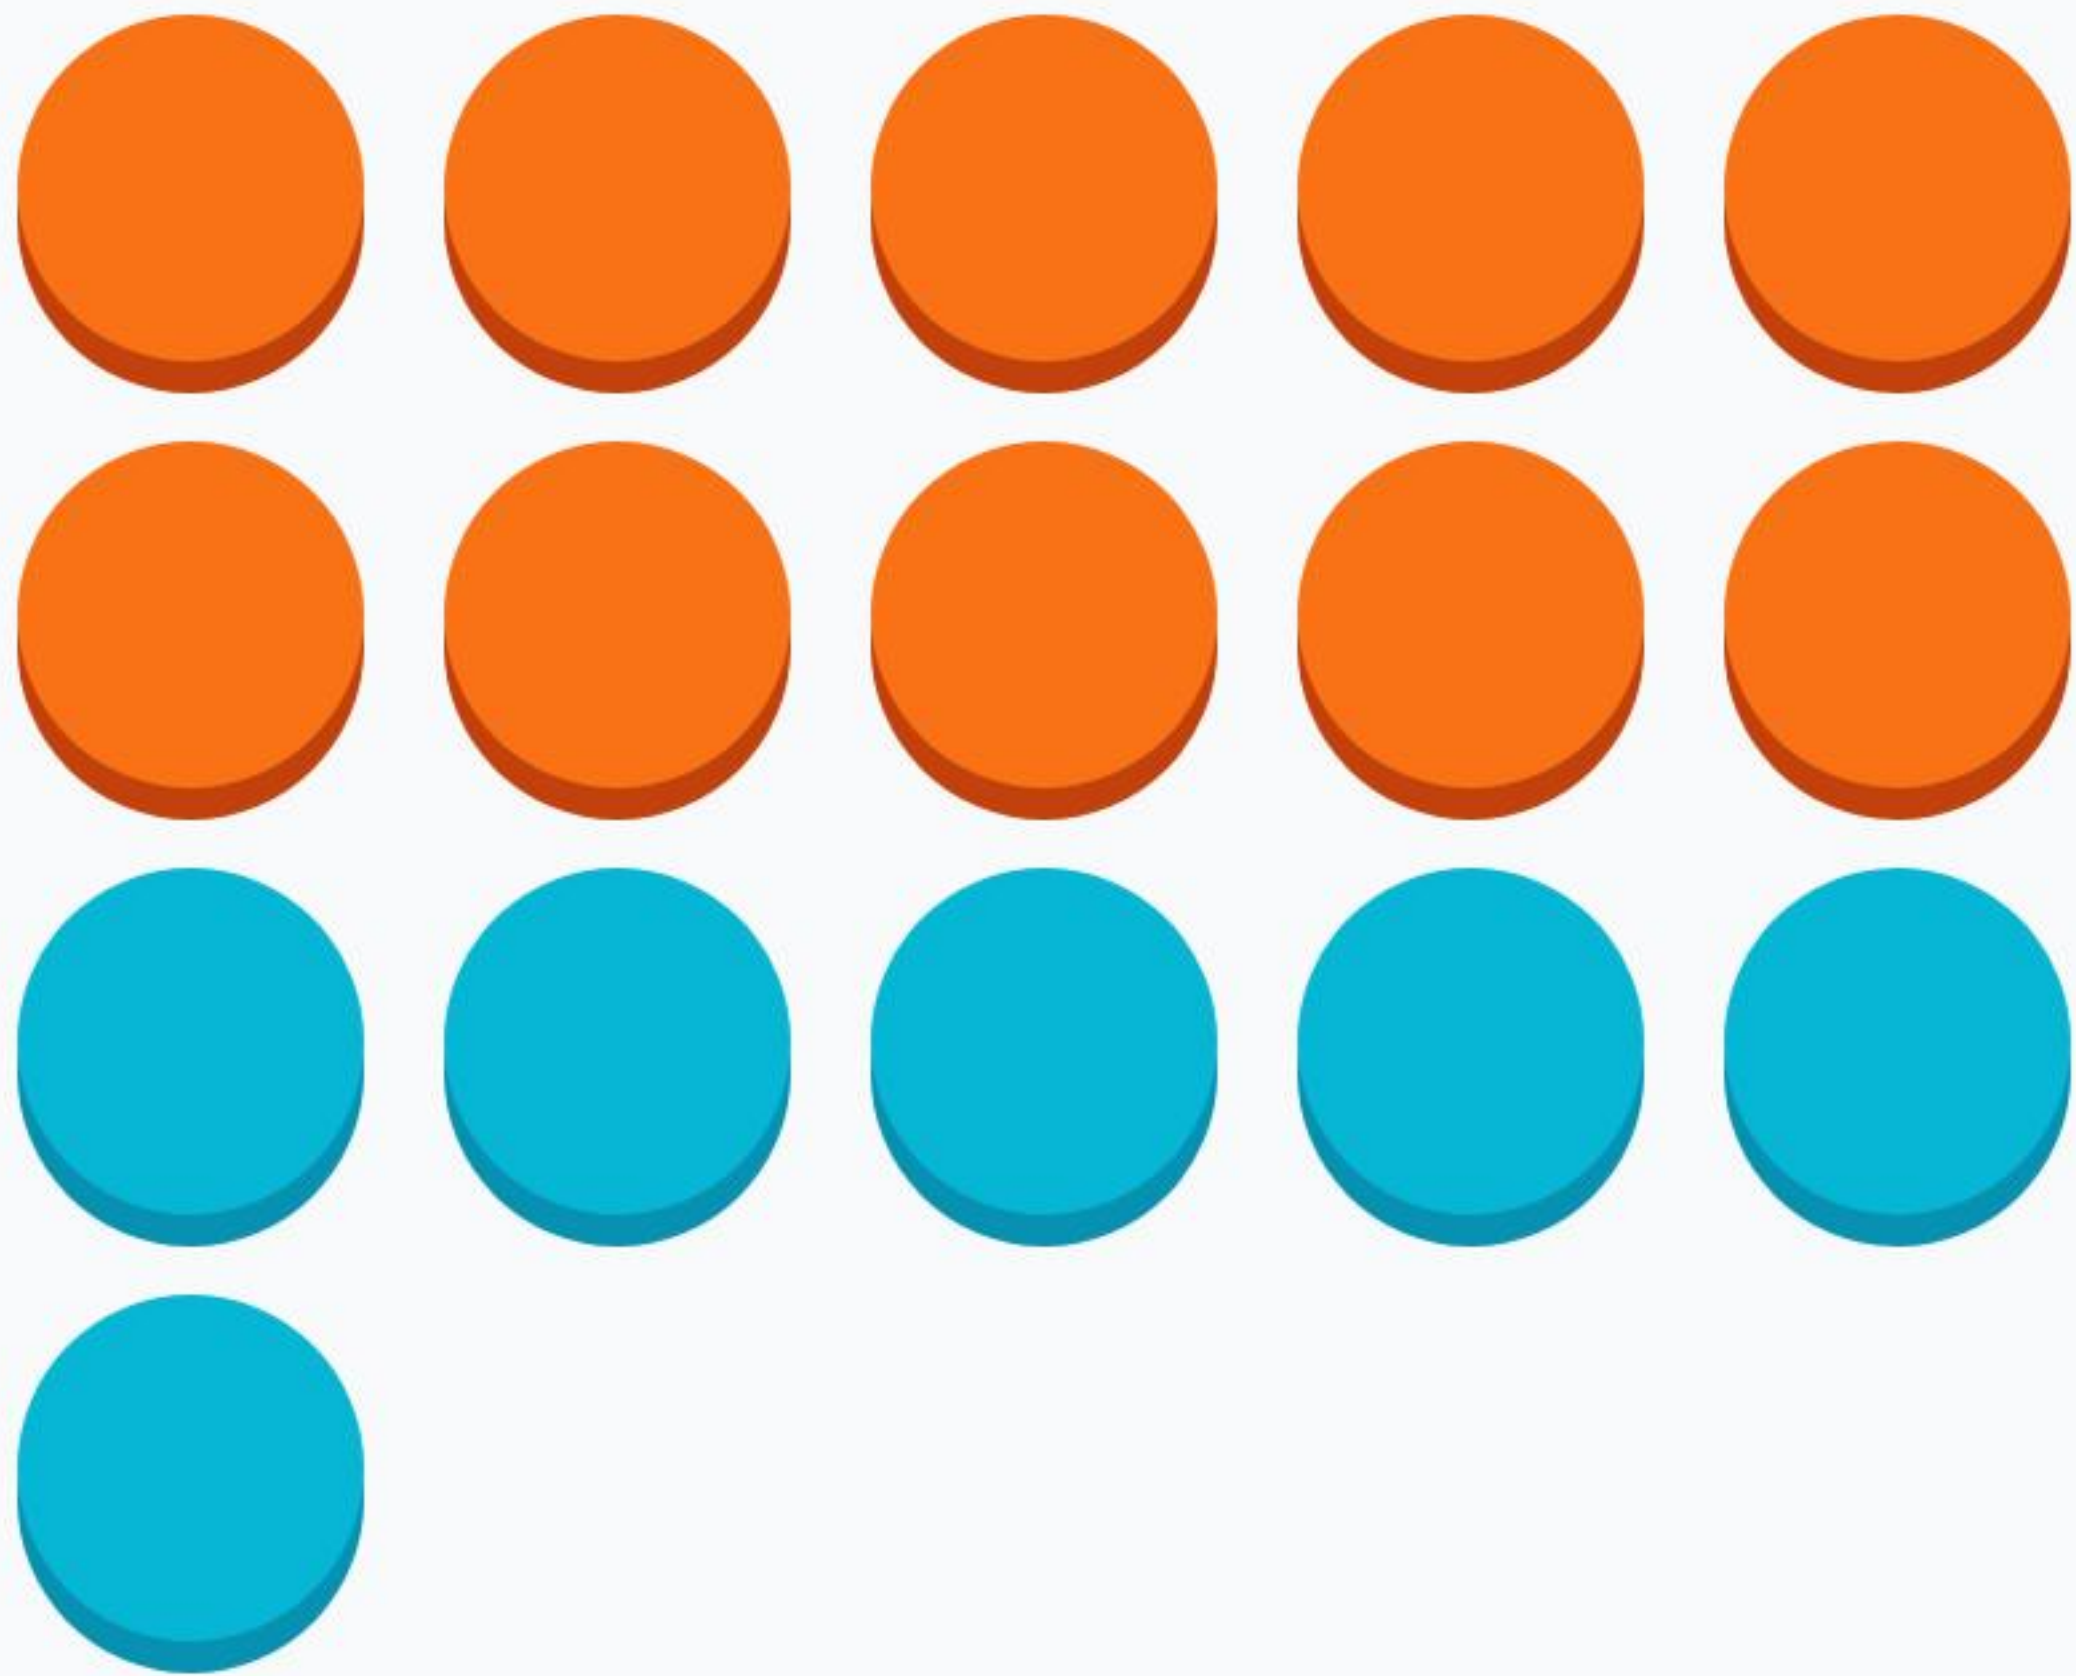

15

FIFTEEN Sweet Laddoos

In simple words: Fifteen is exactly ten and five more.

Number 16

16

SIXTEEN

1 Bundle of Ten + 6 Loose Sticks

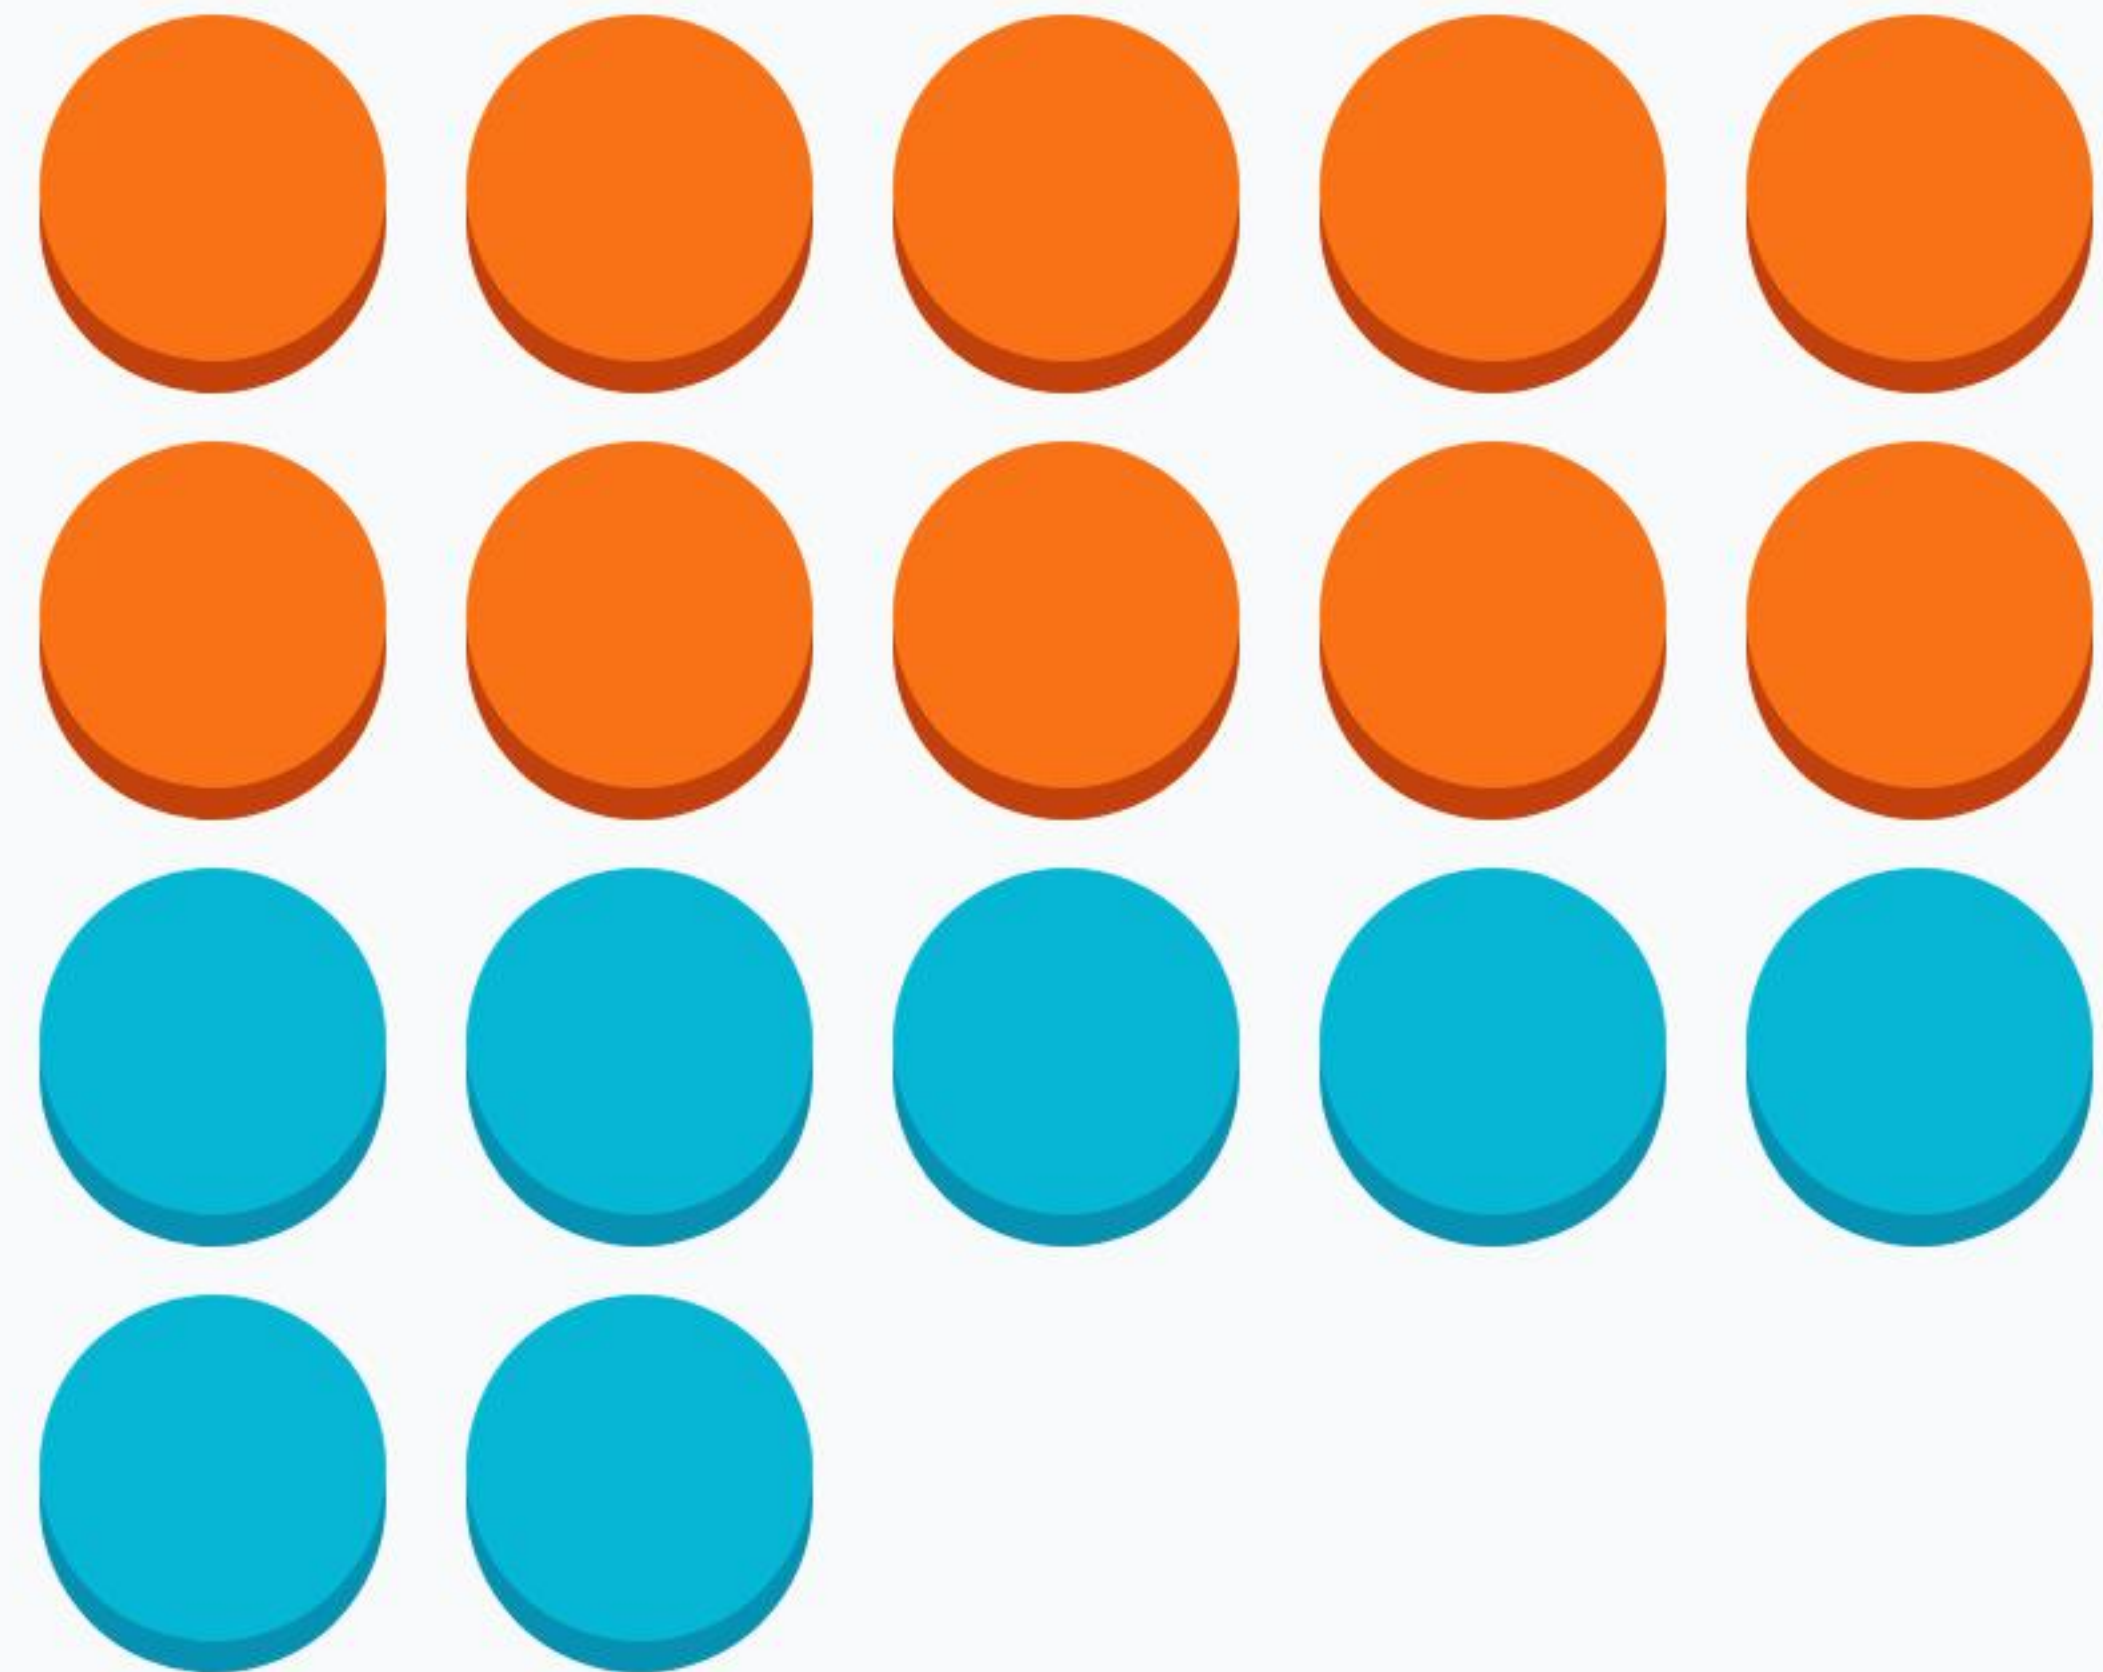

In simple words: Sixteen is ten and six more.

Number 17

17

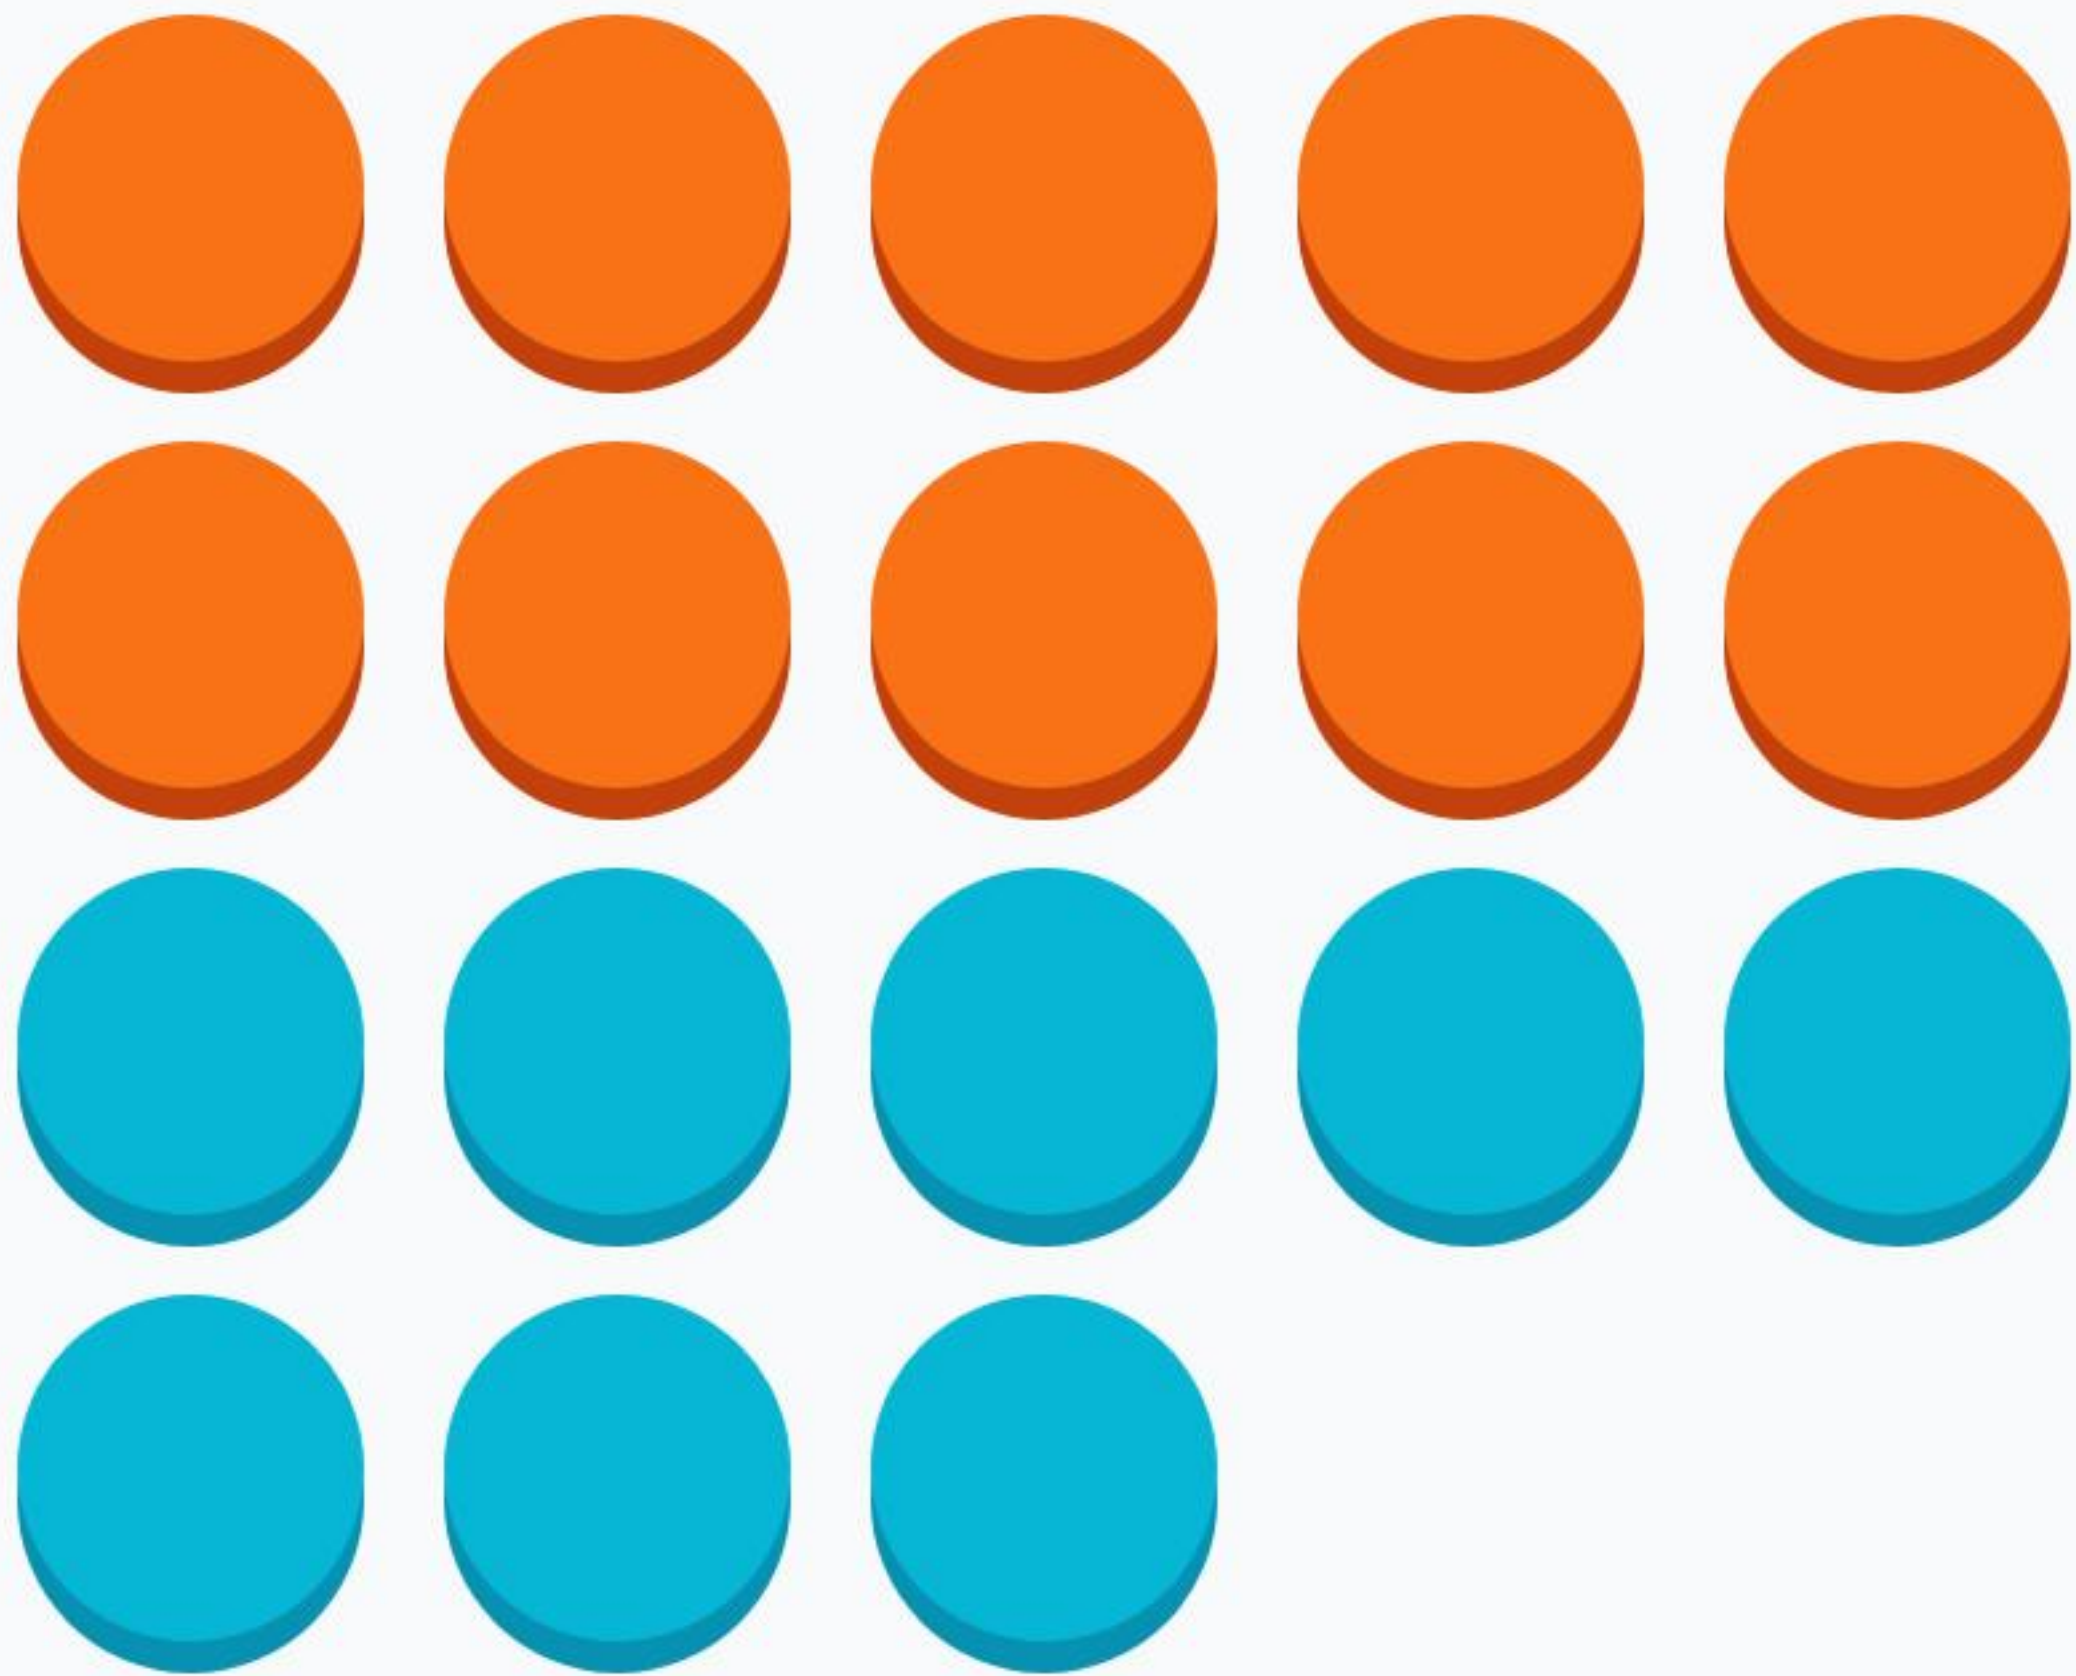

SEVENTEEN

1 Bundle of Ten + 7 Loose Sticks

In simple words: Seventeen is ten and seven more.

Number 18

18

EIGHTEEN

1 Bundle of Ten + 8 Loose Sticks

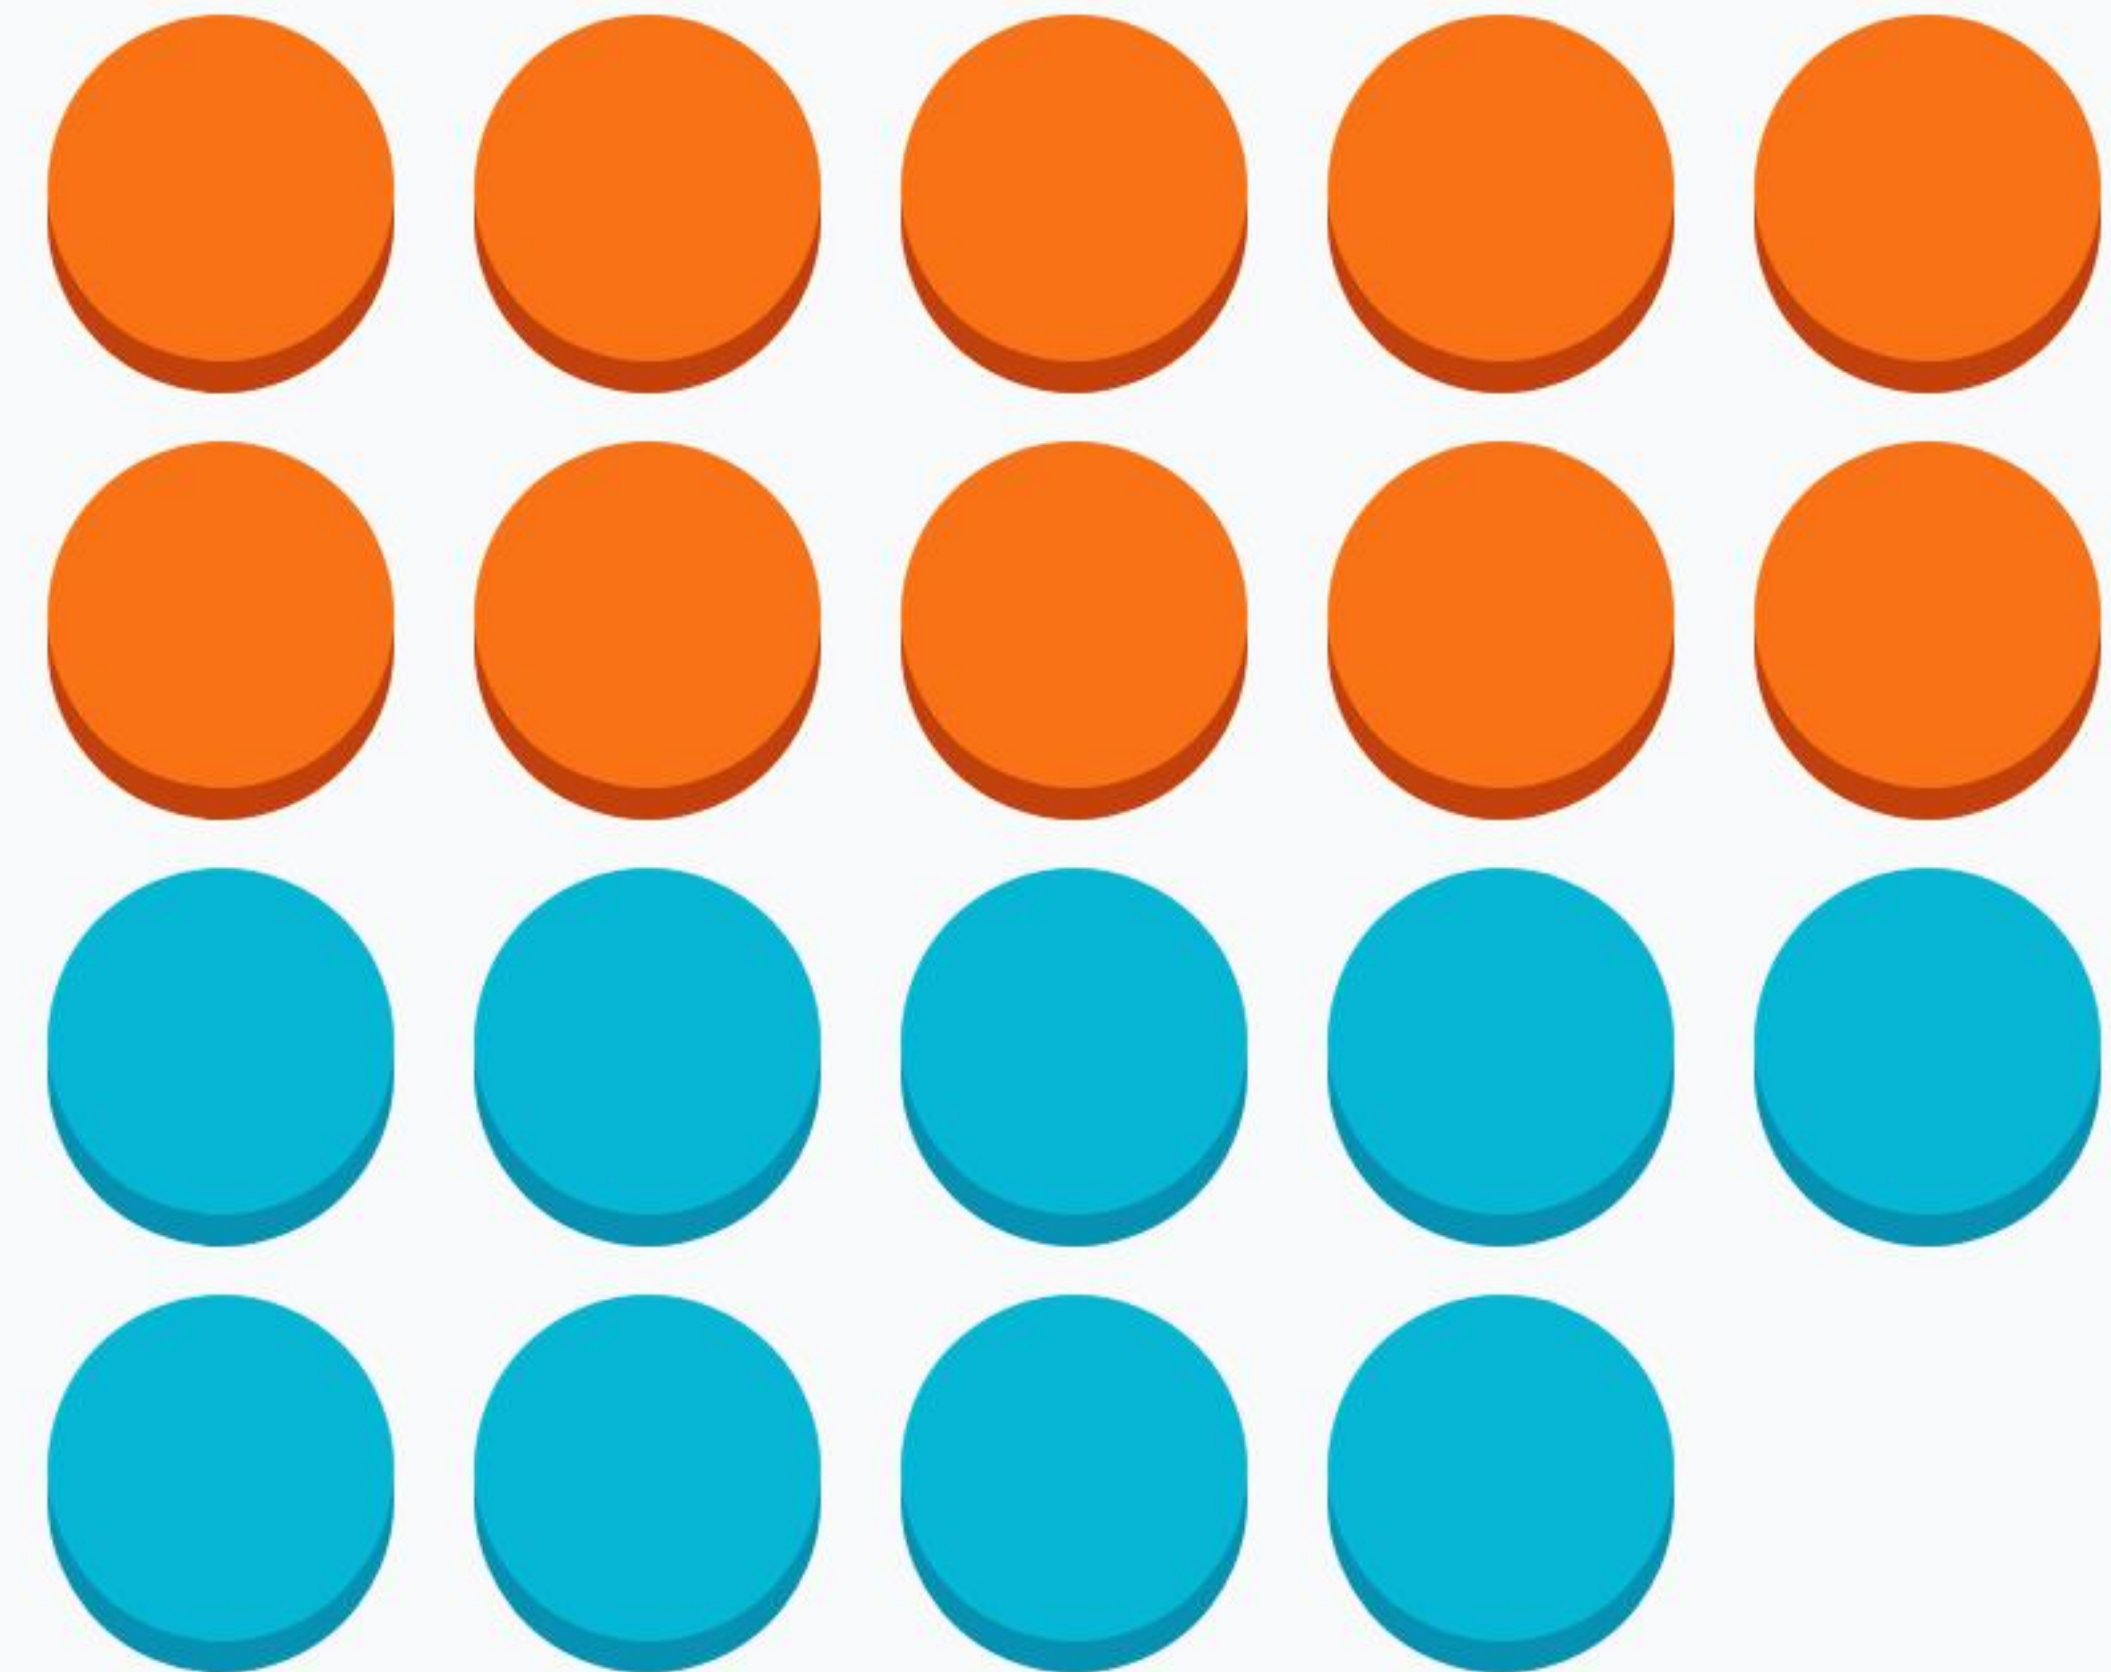

In simple words: Eighteen is ten and eight more.

Number 19

19

NINETEEN

1 Bundle of Ten + 9 Loose Sticks

In simple words: Nineteen is the biggest number before we form a new group!

Making another **Bundle!**

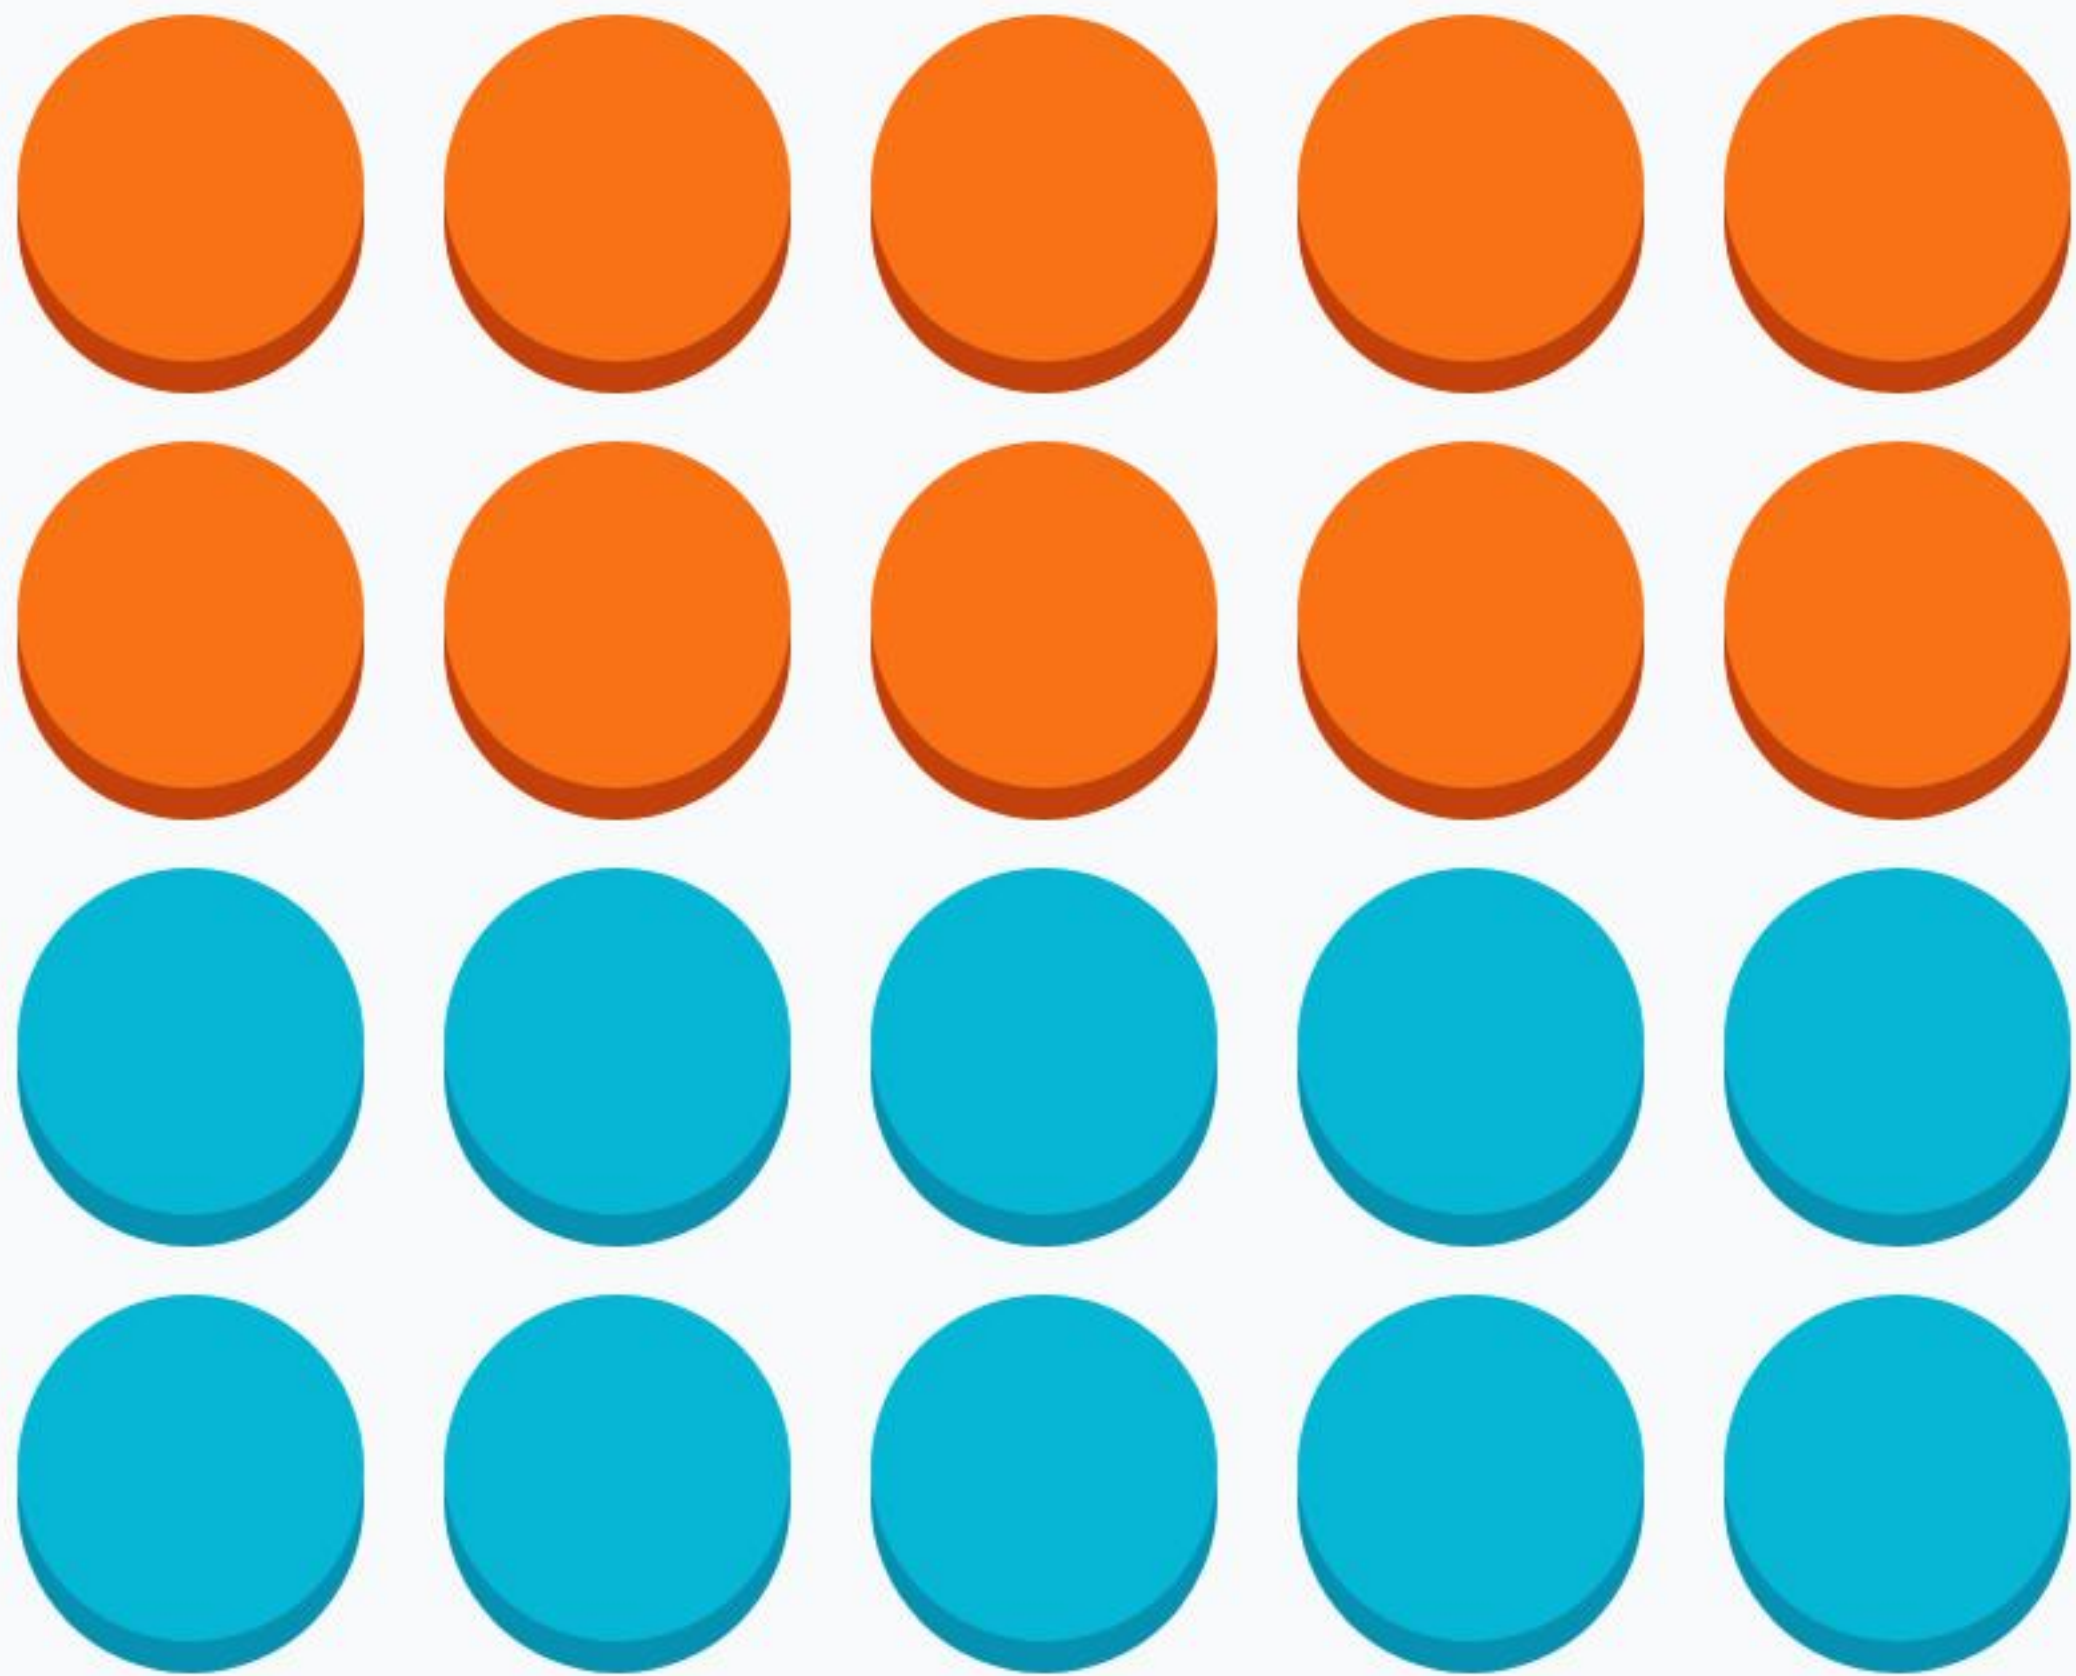

When we add one more stick to 19,
our loose sticks become 10!

We tie those loose sticks together
into a **second bundle**.

Now we have exactly 2 Bundles!

Number 20

20

TWENTY

2 Full Bundles of Ten! No loose items left.

In simple words: Twenty is two groups of ten items.

Tens and Ones Houses

Every double-digit number lives in two special rooms:

TENS House

Tells us how many bundles of 10 we have.

ONES House

Tells us how many loose single items are left over.

Looking Inside 14

Let's put the number 14 in its proper house rooms:

In simple words: 14 has 1 bundle of ten and 4 single extra ones.

The Number Train Escalates

Let's read our numbers out loud sequentially together:

10

11

12

13

14

15

16

17

18

19

20

Interactive Guessing **Game!**

Which number am I?

I have exactly **1 bundle of ten** and **7 loose sticks** in the ones house.

Shout out the answer if you know it!

17!

Neighbors: **Before & After**

Just like house lanes, numbers have standard fixed neighbors:

BEFORE 15

14

15

AFTER 15

16

Fun Homework **with Spoons**

Go into your kitchen with your mother tonight.

Count out 10 steel spoons and place them in a neat line. Then add 3 more spoons next to them.

How many spoons do you have in total? (13!)

Sensational Double Digits!

You can now confidently count up to 20 like a math champion!
